Our Mission

We believe that building trauma-informed communities is essential for fostering resilience across our state.

Our signature program, the Resilience Empowerment Project (REP), lays the foundation for creating safe, supportive environments by providing the tools and strategies necessary to address trauma, toxic stress, and Adverse Childhood Experiences (ACEs).

Through this program, we aim to equip schools, community organizations, professionals, and youth with the knowledge and skills needed to promote healing and resilience, creating a lasting impact on individuals and communities alike.

The Arizona ACEs Consortium (AZACEs) is a collaboration of more than two thousand individuals, state, county, and private organizations working together.

SIGNATURE PROGRAM

RESILIENCE EMPOWERMENT PROJECT (REP)

The Resilience Empowerment Project provides a foundational understanding of the impact of trauma, toxic stress, and ACEs, and delivers practical tools and strategies to build resilience.

Our goal is to expand the number of individuals that are knowledgeable and ready to take action on understanding:

- The importance of creating systems and environments that provide physical and emotional safety and minimize re-traumatization.
- Trauma as a societal concern with the potential for healing through community action.
- The effects of trauma on our brain and body and the role that plays in behavior.
- The process of becoming resilient and understanding that the impact of trauma and toxic stress is an ongoing journey, not a destination.

We have individualized training available for:

- Youth 12+
- Schools
- Community Organizations
- Criminal Justice
- Private Corporate Sector
- Parents / Caregivers

Resilience Starts with Us

Imagine a world where everyone is equipped with skills to be resilient and the best they can be. REP is designed to create safe, supportive, and resilient environments for all of us to thrive. REP extends across the spectrum ensuring comprehensive community support. But to make this vision a reality, we need your help.
